## News and Results on Thai Heteroptera

published by the Natural History Museum Vienna  
(editor: Dr. Herbert Zettel), appears irregularly,  
about once a year.

"AMEMBOA" presents news and results connected with the international research project "Heteroptera of Thailand" organized by Prof. Dr. Pingping Chen (China) in cooperation with universities, museums, and private collections in Thailand, Europe and U.S.A. Articles present illustrated keys to Heteroptera families and genera of Thailand and adjacent countries, species check-lists, new records, and faunistic studies, but also communications between scientists involved in the project.

Presently available: **No 1** (December, 1996): 24 pp., stiched, ATS 30,-  
**No 2** (January, 1998): 46 pp., paperback, ATS 50,-

Order form: see page 752.
