VOL. II (1998)

WATER BEETLES OF CHINA

EDITORS: M. A. JÄCH & L. JI

WATER BEETLES OF CHINA Vol. II has just appeared. It contains 27 articles on water beetles compiled by more than 20 authors from China, Europe, and North America. A new genus and numerous new species are described in this volume. Two families, Torridincolidae and Epimetopidae are recorded from China for the first time. Numerous colour plates are included.

Orders should be sent to: Dr. H. Schönmann, Naturhistorisches Museum, Burgring 7, 1014 Wien, Austria.
